

SISTERS COVE

Client: Hinkley Gauvain
 Location: Mooresville, NC
 Product Type: Single Family Homes
 Services: Architecture
 Size: 2,749 sf to 5,095 sf

The lakeside village of Sisters Cove has the longest coastline of undeveloped land on Lake Norman, so the developers wanted to ensure each home in the community complemented the setting from the water and land. The architecture marries each home design to the topography, providing all residents with lake access and water views. Elevations inspired by low country and shingle style architecture feature simple but elegant details in harmony with the setting. Open floor plans and outdoor spaces complete the picture-perfect lakeside lifestyle.
