 Site Size: 0.90 Acres
 Density: 196 du/ac
 Retail: 5,500 sf

The new construction project in East Hollywood is aimed at young working professionals. The interior design features a minimalist color palette and contemporary furnishings. Finishes and furnishings were selected that complemented the exterior's colors and textures, using warm earth tones with brass and gold accents. The group also focused on adjacencies for increased usability and security, with the reception desk strategically placed for visibility and shared amenities spread throughout the building.
