

# THE LAKEHOUSE ON SOUTHSHORE

Client: Laing/Village, LLC  
 Location: Aurora, CO  
 Product Type: Community Clubhouse  
 Services: Architecture  
 Size: 9,528 sf

As the feature building of this waterside community, the Lakehouse is sited as a focal point to take in views of the Aurora Reservoir to the south and the mountains to the west. An expansive veranda takes full advantage of these views and overlooks the resort-style pool.

A dramatic four-story rotunda caps the light-filled fitness room, providing nearly panoramic views of the surrounding area. Other levels house a spa, luxurious banquet facilities, private theater and multiple lounge seating options where guests can relax both indoors and out.
