Verde River is a community of energy-efficient luxury homes on 1/2 acre lots. A blend of southwestern architectural styles creates a modern desert ranch elevation, highlighted by unique material applications. An array of floor plans feature sliding pocket glass doors, zero-transition flooring and spacious casita options. The open and expansive great rooms are perfect for entertaining while the private casita offers a secluded space for guests. Buyers can celebrate the beauty of Arizona sunsets with outdoor living spaces that connect to the indoors.
