RENEWABLE LIVING HOME

5 Bedrooms 5.5 Bathrooms 3-Car Garage U.S. Department of Energy DOE "Zero Energy Ready" Certified Energy Star Certified EPA "Indoor Air Plus" Certified

The reNEWable Living Home is a creative response to the multi-generational lifestyle packaged in a super-efficient envelope with a HERS score of 16. The design connects practicality, flexibility and adaptability. An open concept living area allows for entertainment and plenty of family interaction. To accommodate three generations, the home offers individual privacy with a mainfloor primary suite, a separate in-law suite off the kitchen and a second-floor "Fonzi Flat" for boomerang children, complete with additional living space.
