

# METRO 59 CLUBHOUSE

Client: Next Generation Development  
 Location: Aurora, IL  
 Product Type: Multifamily For Rent Community Clubhouse  
 Services: Architecture  
 Size: 6,756 sf

Although this multifamily community is in the suburbs, the modern architecture of the Metro 59 Clubhouse is reminiscent of downtown Chicago. This club building uses a fresh design approach, with curved lobby walls, high ceilings and bold lines. Designed to encourage through-views, the interior spaces visually connect residents to the outdoor amenities, which include a pool, a grotto with spa and waterfall and a sundeck with fire pits, cabanas and grilling stations. Indoor features include a fitness center with yoga studio and a clubroom with lounge areas and a gourmet kitchen.
