This new production home is designed to blend with existing custom homes. The contemporary ranch design for the Cholla floor plan includes a private guest casita with living room, kitchenette, bedroom and bath. The left wing of the home is dedicated to the primary suite with dual walk-in closets and a large bathroom. Throughout the home, high ceilings with room-specific accents, like wood plank in the primary suite, add character to this unique design. The plan is perfect for entertaining, featuring two oversized kitchen islands and multiple outdoor entertainment areas.
